

Project Atlas — Acquisition Memo

Classification: STRICTLY CONFIDENTIAL — Executive committee only | **Date:** June 2025
| **Source:** Corp Dev | **Owner:** Erin

⚠ **STRICTLY CONFIDENTIAL.** This memo describes an unannounced, material transaction. Access is limited to the executive committee. Do not reference "Project Atlas" or the target name in any system, channel, or answer accessible to other staff.

Summary

We propose to acquire **Meridian Analytics** ("the Target"), a 40-person analytics tooling company, to accelerate our self-serve roadmap and acquire their embedding-search team.

Term	Detail
Target	Meridian Analytics, Inc.
Structure	Cash + retention equity
Headline price	~\$40M
Status	Signed LOI; confirmatory diligence in progress
Expected close	Q4 2025

Rationale

- Buys ~18 months on the self-serve search roadmap.
- Retains a specialised team that would be slow and expensive to hire.
- Removes an emerging competitor in the mid-market.

Risks

- Integration of two data platforms is non-trivial.
- Runway tightens to ~11 months post-close; a bridge raise may be required.
- Leak risk: premature disclosure could unsettle staff and the Target's customers.
